A day course led by Martyn Payne from Barnabas (BRF). For many ministers charged with organising a service where all ages are present, the task seems to be an impossible one! There are so many levels of age and ability. How can such worship be both 'in spirit and in truth' and also truly resource the spiritual journey of all present? How can it avoid either simply being a children's 'event' with adults present or an adult service with children playing a bit part? This training session will begin to explore the theology as well as the practical considerations involved in such services, so as to enable true side-by-side learning and worship. It will look at the issues surrounding the inclusion of children in all aspects of worship, including children and communion.

To book a place on the above course please complete the booking form below and return with your booking fee of £10. **(Cheques made payable to: St Albans DBF).**
