Application for Funding Support

In St Albans Diocese, work of a social responsibility / justice nature is supported through a limited CJN Fund. From the CJN Fund, modest allocations are made to the established lines of work to cover their costs. However, a significant proportion of the CJN Fund is set apart to support new priorities and initiatives.

Applications for Funding Support are invited, using this form – typically funding between £200 and £600 can be approved for a single application (*in exceptional circumstances, it may be a higher amount*).
