Attendance

Church Attendance on a 'usual' Sunday – 2016

Please state how many people attend your church on a usual Sunday when there is one or more services. For the purposes of this return a 'usual' Sunday is one which is not a major festival or contained in a peak holiday period. (Wherever possible, please do not count the same person multiple times – if someone attends more than one service count them once)

In the case of a United Benefice service, record the attendance in the church where the service took place, do not split the figure between several churches. Add together the attendances for each of the Sundays in 2016 when worship was held and divide by that number of Sundays, e.g. Services are held once a month and the total attendance for the 12 Sundays was 240 adults and 48 children, therefore the Average Sunday Attendance is 20 Adults and 4 children.
