What we needed

Tower re-rendered to make it safe for users of the church and the pedestrian right of way.
How we looked
Investigation with banner
What we achieved

Restoration

• A safe tower with new render and much new masonry
• A lightning rod
• A hand rail up the tower stairs.
What we achieved

Restoration

A safe tower with new render and much new masonry
A lightning rod
A hand rail up the tower stairs.

New Works

- More adaptable, energy efficient lighting
- New glass doors.
What we achieved

**Restoration**
A safe tower with new render and much new masonry
A lightning rod
A hand rail up the tower stairs.

**New Works**
More adaptable, energy efficient lighting
New glass doors.
