#### APPLICATION:-

- We normally recommend 1 to 2ml per linear meter if you have sheets of lead.
- Apply the solution to the ridge where the sheets of lead overlap each other, thus covering both sheets in one go.
- If you are marking guttering or down pipes, dab the solution once onto the item every foot.

Once you receive the new solution we will pre-register your SmartWater kit for you please apply the solution as soon as you can to ensure that your insurance cover is in force.

#### IMPORTANT:

**ALTHOUGH WE WILL PRE-REGISTER YOUR NEW SMARTWATER PURCHASE FOR YOU, IT IS ESSENTIAL THAT YOU APPLY THE SOLUTION AS SOON AS YOU CAN TO THE CHURCH SO THAT IF YOUR LEAD IS STOLEN IT CAN BE IDENTIFIED AND THE POLICE WILL BE ABLE TO GET A CONVICTION AGAINST THE THIEF**

When placing an order you do have the option of being invoiced for the items, if you could also provide your church policy number it would be appreciated and in the event of a theft of metal claim it enables us to process the claim without unnecessary delays.
